

ICC SYDNEY 250 WORD COMPANY DESCRIPTION

Experience world class

ICC Sydney is Australia's premier convention, exhibition, and entertainment precinct. The world class venue boasts a striking contemporary design, leading technology and flexible spaces to cater for the changing architecture of meetings.

ICC Sydney is capable of holding multiple large events simultaneously and can support any number of configurations and complex structural set-ups. It is also home to 70 meeting spaces, including three theatres ranging from 1,000 to 8,000 seats, Australia's largest ballroom, a 5,000sqm open air Event Deck, and 35,000sqm of internal exhibition space.

The world class venue is supported by an industry-first Feeding Your Performance culinary philosophy that showcases regional and local produce and offers 'smart' menus comprising fresh, seasonal ingredients, expertly combined to drive physical and mental performance. The venue's approach to its wine collection also champions local talent, with 80 per cent of the labels available hailing from New South Wales, meaning ICC Sydney can support regional businesses and ensure all guests get a taste of the best food and drink New South Wales has to offer.

Located in a prime waterfront location on Darling Harbour, the integrated precinct provides the ultimate in quality, choice and flexibility for the world's leaders and thinkers, to meet, collaborate and innovate, and emphasises Sydney as one of the world's greatest business events destinations.
